Single copy, one year (Greenback), \$2.00

Advertisements inserted at reasonable rates.
All kinds of Job-Work done to Com-
petence with San Francisco in Price,
Style, and Elegance of Workmanship.

Nevada Items.

Citizens of Pioche are now passing
through their heated term, the ther-
mometer marking at noon 112° in the
shade.

A fire at Carson City on Monday
night, in the harness shop of James
Levid, destroyed \$2,500 worth of prop-
erty before being extinguished.

At Reno, Elko, Winnemucca, and
all the cities of the plains, the weather
is now intensely hot, the mercury
standing at from 100 to 110 degrees in
the shade.

On the 23d of June, says the Silver
City Times, a letter was mailed and
post-marked at the Virginia office,
addressed to this place. The letter ar-
rived on the 7th day of July—fifteen
days coming a distance of about three
miles.

The work of laying the new steel
rails has been commenced by the Vir-
ginia and Truckee Railroad, at a
point just below the trestlework cross-
ing Crown Point Ravine. The steel
rails will last about five times as long
as iron ones.

An armed guard is still on duty
nightly at the Uphill mine. It is not
likely that the opposition will attempt
to eject the men who are in possession
of force of arms. It is too late in the
day for that kind of business in this
part of the State.

Several farms on the upper waters
of Carson river were considerably
damaged by being inundated and cov-
ered with water. The breaking of the
big wood-boom, a few days since, says the Virginia Enter-
prise of Tuesday.

Last Spring, says the Austin Revue,
a great many people advocated emigra-
tion. We would like to see the color
of a man's hair who would dare to
favor it in Austin just now. It's a
very comfortable suggestion in cold
weather, but it won't do in the present
state of the thermometer.

The Belmont Courier of the 11th has
the following: "R. Cornelius, living
over in East Belmont, while walking
over the mountain, the Quarry, a ter-
rible mine is located, and about 250
yards southwest of the shaft of the
same, on the afternoon of Sunday last,
found a skull, apparently that of a
white man. The teeth in the upper
jaw were full, and at the time death
ensued had been sound. A small
quantity of hair of a light brown
color remained on the back of the
skull, which was minus the left ear,
and had a bullet-hole in the left side,
with no sign of having passed through
the skull. To all appearances we
should guess the age of the deceased
to have been thirty-five years, and the
time since death took place fully three
years, with a possibility of five. Some
are of the opinion that it is the re-
mains of a Frenchman who mysteri-
ously disappeared from the Monitor-
Belmont mill some three years ago,
but nothing positive is known, as none
who knew the Frenchman are able to
identify the skull. It is probable that
the whole affair will remain a mys-
tery, as it is not likely, if foul play
existed, after so long a time, that any
clue can be obtained."

The Territories.

The new steam trip hammer at Port
Gamble, W. T., is a grand success.

A stable roof in Missoula, Montana,
fell a few days ago, and killed five
horses belonging to Lent & Osborne.

The territorial warrants of New
Mexico are reported as selling at 90
cents on the dollar, with an upward
tendency.

The late fire in Central City, Colo-
rado, destroyed about 125 buildings,
principally business houses. The total
loss is estimated at \$500,000.

There are still one thousand Apaches
fit for the field, notwithstanding the
decimation of their tribe so frequently
by General Crook's command.

The Schome coal mine, in Washing-
ton Territory, has shipped to San Fran-
cisco last year 21,211 tons of coal,
against 4,100 tons the year before.

Governor Potts, of Montana, sent
ten thousand pounds of cartridges to
Diamond City, to be used by the peo-
ple of Meagher county in home defense
against Indians.

S. A. Dickey, post trader at Fort
Lincoln, near Bismarck, Dakota, ad-
vertises in his circular in the Tribune
that unless they appear and settle at
once legal proceeding will be com-
menced against them.

A ledge of soapstone has been dis-
covered in the San Jacinto Valley, two
miles from Salt Lake. The ledge has
already been developed to a thickness
of six feet, and shows an inexhaus-
tible supply of the material.

In a moral point of view, the life of
the agriculturist is the most pure and
holy of any class of men; pure, be-
cause it is the most healthful, and
vice can hardly find time to contaminate
it; and holy, because it brings the
Deity perpetually before his view,
giving him thereby the most exalted
notions of Supreme power, and the
most fascinating and enduring view
of benignity.—[Lord John Russell.]

THE DUST WE TREAD UPON.

The poet, Shelley, while standing upon an
anti-climax once made the remark, "The dust we
tread upon was once a man." Grasping the idea,
Thompson afterwards wrote the following
charming poem. It was brought to our attention
by Professor Denton in his lecture on
Thursday evening, and, at our solicitation,
he kindly furnished it to us for publication:

Tell me, thou dust beneath my feet,
Thou dust that cover'st my path,
Toll me how many mortals meet
In this small hill of death.

By weeping winds and howling rains,
Laved, beheaded, and bedewed,
Collected here the fruit remains
Of countless millions dead.

The mole that scoops with curious toil
Her subterranean bed,
Thinks not she plows so rich a soil
And mingles among the dead.

But oh, where'er she turns the ground,
My kindred dust I see;
Once every atom of this mound I
Laved, beheaded, and bedewed.

Like me these elder born of clay
Enjoyed the cheerful light,
Bore the brief burden of a day
And went to rest at night.

methinks this mound yet heaves with breath
Ten thousand pulses beat;
Toll me how many mortal breath
How many mortals meet.

—THOMPSON.

LETTER FROM SAN FERNANDO.

The Oil Wells—The Senator's Pim-
pkins and Sauer-Kraut—The Farmers
—Increased Productions of the San
Fernando Valley—Tobacco—Change
of Railroad Time—Improvements in
the Town, etc., etc.

EDITOR HERALD:—There seems to
be quite an excitement among people
in various parts of the State in regard
to the oil wells of San Fernando.
Many parties arrive here daily en
route for this new El Dorado. I, the
other day, met with a gentleman who
had just returned from a visit to the
springs, and he gave me a very glow-
ing description of them, and he spoke
whereof he knew, having been a re-
sident of the oil country of Pennsylv-
ania. I was curious to know what
kind of a formation the oil-bearing
fluid was found in. He stated that it was
found in the limestone and sandstone
formations; that in many places he
found better indications than in many
places in Pennsylvania that had
proved very productive, and had made
immense wealth for their fortunate
owners. He also informed me that
the oil of San Fernando would yield
a commercial percentage of seventy-
five to ninety per cent.; that they ob-
tained at the new works a first-class
illuminating oil of forty to fifty per
cent., and besides showing a consider-
able amount of paraffine, naphtha
and kerosene oil. Now you see, Mr.
Editor,

A NEW SOURCE OF WEALTH.

Is opening up for Los Angeles county.
Here you see will be a great saving
for our people; that is, by keeping our
money at home, and then in addition
to that there will be vast quanti-
ties exported, bringing to us im-
mense sums of money, giving
employment to the laborer and
mechanics; opening a new market
to our farmers and stimulating our
business. By the bye, speaking of
our farmers, I was yesterday standing
on the platform of the railroad depot
and saw coming from the cars two
large crates of fine cabbages, and be-
ing of an observing disposition, I was
led to inquire where they came from,
and you may imagine my surprise on
being told that they came from San
Fernando. Well, to say I was aston-
ished would not be a strong enough
term to express it in. But we must
put a stop to all this. Shortly after
my arrival here, Mr. Maclay, in con-
versation with his gardener, asked
him what kind of vegetables he had
planted. His reply was, "Oh, I have
all the products of that kind you will
require, not only for your own use,
but a vast quantity to sell." "Well,
what kind of vegetables have you
planted?" "Well, to say I was aston-
ished would not be a strong enough
term to express it in. But we must
put a stop to all this. Shortly after
my arrival here, Mr. Maclay, in con-
versation with his gardener, asked
him what kind of vegetables he had
planted. His reply was, "Oh, I have
all the products of that kind you will
require, not only for your own use,
but a vast quantity to sell." "Well,
what kind of vegetables have you
planted?" "Well, to say I was aston-
ished would not be a strong enough
term to express it in. But we must

Latest Telegrams.
Two Days' Battle With Indians.
ALL OFFICES DECLARED VACANT IN ARKANSAS.
EASTERN.
Chicago, July 18.—(Telegraph.)—General Sheridan has received word from the Indians in Seminole county that they are ready to accept of any of the powers or rights of sovereignty conferred by the legislative body of the state, and that they will declare all offices vacant, and order a new election.
Panama Steamer.
New York, July 18.—The steamer Constitution sailed from Panama for San Francisco on the 17th.
Arkansas Constitutional Convention.
Little Rock, July 18.—The Arkansas Constitutional Convention will declare all offices vacant, and order a new election.
The Priest Innocent.
London, July 18.—The priest who was arrested as an accessory in the attempt to assassinate Bismarck has been released, as he proved his entire innocence.
SAN FRANCISCO.
Deaths During the Week—Small-Pox—Heavy Mails for Australia.
SAN FRANCISCO, July 18.—There were eighty-three deaths in the city the past week.
A case of small-pox was discovered yesterday. The patient was taken to the pest-house.
The steamer Tartar did not sail for Australia to-day. There is a great accumulation of mails in the postoffice for that country, and the quantity increases daily.
ARIZONA.
Stormy Weather in Prescott—Change in Telegraph Operators—The Saloon Business.
Prescott, July 16.—The weather has been cloudy, with occasional storms of rain, accompanied by heavy thunder and lightning, with strong wind.
John T. Gifford, for the past six months U. S. Military Telegraph Operator at Stanway Station, has resigned, and will leave for his home in San Diego in a few days.
Mr. Atkinson, who has been in charge of the Military Telegraph office at Yuma, having been relieved by John Carroll of San Diego, also returns to San Diego.
The Miner says Prescott has ten or eleven drinking saloons, one of which furnishes cigars and cigarettes at a bit apiece; the remainder stick to the old price, two bits.
Telegrams from San Carlos say the Apaches on that Reservation are behaving excellently under military management, and they are now harvesting their grain crop, which is very heavy.
The Phoenix correspondent of the Miner says: The harvest is about over and the threshing is beginning their work. I think the crops will be short of the estimates made before harvest. Not so many acres were cut as last year, and the grain is light. There is plenty, however, for the prices that are offered. Only this one point per pound for barley, when men have to cut it in such hot weather.
Water is very scarce in the valley. The river has plenty of it, but the ditches are all too high, the bed of the river having been lowered from one to two feet by the freshet of last winter. There are plenty of fish in the river and fishing parties are all the rage.
Pacific Coast Items.
A fire has been raging in the woods east of Auburn.
New wheat is arriving at South Vallejo at the rate of 200 tons a day.
Rich specimens of gold quartz have been discovered about fifteen miles distant from the Holcomb Valley mines.
The smelting-works at Sacramento have quit; cause—no water. While going, they produced 45 tons of bullion from 107 tons of ore.
A band of 2,400 sheep belonging to Messrs. Anderson and Parks Bros., passed through Westland to join another band in the tules, of 8,000.
Preparations are being made at Marysville to raise the steamer Belle, snagged three years ago with a cargo on board, and \$3,000, at the junction of the Yuba and Feather rivers.
Business is not as lively in Truckee as it has been in former years, but yet the town is improving and increasing in population. Two new dwelling houses have been built within the past two months.
There is considerable complaint in Vallejo at the quality of water now furnished by the water company. The trouble is that the water in Lake Chabot is fermenting, and will be unpleasant to the taste and smell until the fermentation ceases.
J. A. Calfee delivered at the Banner Warehouse on Monday the first new wheat of the season for Napa. This was raised on Keely's ranch, two miles north of Napa City. The first wheat of the season from Berryessa (four loads) came in Tuesday from Andy Wester and O. Schetter.
Tourists are flocking from all parts of the world to Truckee, the "switching-off" place. Over one hundred and fifty have arrived within the past two days. The large portion went their way to Lake Tahoe, but Webber and Independence Lakes attract many.

WANTS-LOST-FOUND.
LOST-ON MONDAY, EITHER IN THE city or on the road running out by the first burial ground, a pocket-book containing the first naturalization papers of Fred. Gross, and two fifty dollar greenbacks, and other valuable papers. The finder will be liberally rewarded by leaving the property at the HERALD office.
Los Angeles, July 18, 1874. Jy 14-15
WANTED-TO PURCHASE THREE OR four thousand acres, or four to five thousand good ewe lambs. Enquire of GILMACHER BROS., Lafayette Hotel. Jy 19-18
WANTED-2000 SHEEP TO KEEP ON shares, by a man thoroughly posted in the business, who has extensive experience near Prescott, Arizona. The range is well supplied with water and feed the year round, and experience has demonstrated that there is no more profitable locality for sheep on the Pacific slope. For particulars address F. B. this office. Jy 14-15
